Targeting an Internship or Entry-Level Opportunity as Front-End Developer

Objectives

- To search for a position that will allow me to improve my current programming, communication, and teamwork skills.
- From this position, I also seek the opportunity to learn new skills for future use.

Education

North South University -- Dhaka, Bangladesh - Pursuing Bachelor of Computer Science and Engineering (CSE);
CGPA:3.22/4.00

- Senior Software Engineering Capstone Design Project (in progress):
 - *Project* : Currently working as part of a three -member team in a project on Imbalance Classification by Synthesizing Data on Medical Images.
 - *Tools*: Jupyter Notebook, PyTorch(Python), CNN, StyleGan

Relevant Coursework: Algorithms, Data Structures, Operating Systems Design, Database Management Systems, Software Engineering, Web Technology, Networking, Advanced Database.

Work Experience

Creative IT --Dhaka, Bangladesh - Teaching Assistant of Online Support Team (Web Design), March 2020 to September 2020

- Provide Conduct online sessions for students needing extra help outside of class hours and help them solve problems in assignment-based projects.

Academic and Personal Projects

- **DocTalk ([Link](#)) 2021**
DocTalk is a complete MERN web application that will allow patients and doctors to communicate online by staying at home. Multiple features in this application are like applying for the doctor, appointments, searching for doctors, notification, and approval from the admin. I have used HTML, CSS, JavaScript, React.js, Axios, Node.js, and MongoDB in this project.
- **Recruit Now ([Link](#)) 2022**
An online job portal web application that can help users to find jobs according to their credentials. A user can also add a job and delete it from his particular account. A user can also search for jobs and see the current status of that job by status, type, and sort. I have used HTML, CSS, JavaScript, React.js, Redux, and Axios in this project.
- **SadaKalo ([Link](#)) 2022**
An Over-the-top (OTT) movie and series streaming application where the user can sign up by providing the required information and can watch desired movies and TV shows. I have used HTML, CSS, JavaScript, PHP, and SQL in this project.

Skills

- **Proficient Knowledge:** Data Structures, Algorithms, Internet and Web Technology and Cyber Security.
- **Programming Language and Technologies:** C, JavaScript, PHP, React.js, Redux, Axios, Node.js, MongoDB, SQL, HTML, CSS, Ajax, Git.
